

## AVerEPack

Forget about bringing your laptop to meetings anymore because the AVerEPack allows you to conduct instant presentations **without the need of a desktop or notebook computer**. Simply store all of your PowerPoint files or variety of other images into a CompactFlash card\* through your PC's printer port. Then insert the card into the AVerEPack and you are ready to give a presentation using any television, LCD projector or VGA monitor.

\*CompactFlash card not included.
